

Newsletters

The Montgomery Township Municipal Newsletter

Montgomery Township’s quarterly newsletters are printed as an insert in the Montgomery News, posted on the twp. website, and noticed by email bulletin (Ebulletin), a free service to over 5,500 subscribers, plus via social media. They are released on or around March 1st (Spring), June 1st (Summer), September 1st (Fall), and December 1st (Winter).

At the end of last year, our township committee started a new long-term strategic planning process that focuses on enhancing Montgomery as a premier township. Through this work, we are identifying goals based on feedback from residents, businesses and community partners. In collaboration with township employees, we have identified direction of goals.

The first of these is preserving our position as a model of environmental stewardship. With over 6,500 acres in our community preserved as parks, open space or farmland, we have a rich history of ensuring future generations can enjoy what makes our township unique. As part of this effort, we are also working to prepare for natural disasters after seeing how an event like Hurricane Ida can impact our forests, water and open spaces.

Another goal is to foster a deeper understanding and appreciation for Montgomery. This is also at the forefront of our work. Somerset County is currently working through a transportation plan that will guide the next 20 years of upgrades and reconstruction. We encourage all residents to stay up-to-date on progress.

making prudent financial decisions that preserve your tax dollars. Last year, we secured nearly \$2 million in grants from county, state and private sources. Throughout the year, our departments will continue looking for ways to bring in outside sources of revenue, helping us deliver even greater value for Montgomery residents.

We look forward to seeing you at an upcoming township meeting or event in our beautiful new municipal center.

So much has happened this past year. We opened our new municipal center that offers residents all-around amenities in a state-of-the-art facility and features a branch of the Somerset County Library System; we moved to a new building; and we hired our new Township Administrator.

After a long year for us, we brought back some oldies and goodies with a bang. Camps and recreation programs came back in full swing. The fireworks returned this year with the highest level of turnout ever. Families and friends enjoyed great music, belly food and an amazing fireworks display. Trunk-or-Treat was the biggest ever with over 50 decorated cars, fire trucks and an EMS ambulance sporting its own decorations to the delight of hundreds of kids who treat their Halloween traditions to the limit.

In October, our police department moved into its new home and held a Coffee with a Cop in the new space, greeting the public and

Return to Art with 27 local artists exhibiting their work - both held for a second year in a row. We hope these events encourage everyone to support our local businesses and artists.

As we look to the future, we invite you to attend a township meeting and find out more about how things are moving forward. If you are watching from home, you can now turn on closed captioning.

We wish you a very happy holiday season and look forward to...

How to Submit Announcements for Township Online Communications

As a service to the public, the Township may include community event announcements which meet our policy guidelines in the News Bulletins and Calendar sections of our website. Non-profit community organizations with announcements to share should email Community Information Officer [Tamara Garaffa](#). These emails must include the basic details about the event (what, where, when, how, who to contact for info) in under 100 words of text. Please include the words "Community Event" in the email subject line.

PDF fliers can also be submitted in addition to **but not in place of** the above-described text version of announcement. Accompanying photos or illustrations will be considered and should be attached separately as .jpg or .png files. The restrictions on types of content that can be run are found in our [Website Policies and Terms of Use](#) (Section 5 - Bulletins Page and Community Calendar).
